

Autumn/Winter Collections 2021

INTRODUCTION

From decadent showstoppers, to refreshing minimalism
Textile's stunning new collections are designed to inspire distinct, creative
and versatile new home stylings.

Honouring the latest trends with our unique, signature looks, each of the six
collections showcase a range of carefully crafted ideas, that originate from
global influences and have both subtle and striking finishes.

The new September 21 collections embrace tropical sanctuaries and
coastal themes, as well as classical influences and whimsical florals. With
thought-provoking prints, textured embroideries and shimmering metallics,
the beautiful new styles delve between both traditional and modern.

Recreate, redesign, and reignite

Summer House

Offering a subtle nod to the trend for tropical decor, Summer House brings a laid-back look into interiors. From decorative tile designs and foliage embroideries to linen-look palm prints and a beautiful burnout sheer, Summer House's eight designs create a tropical sanctuary in any living space. The collection's colour palette enhances this feeling of calm, embracing soft green, tranquil blue and earthy terracotta shades that work together harmoniously to bring a relaxed feel into the home.

Montrose

Drawing inspiration from grand manor houses, Montrose is a classical collection of decadent designs. A refined and elegant addition to any home, the prints, jacquards, and rope embroidery tell a story of extravagance with large rose florals, distressed stone urns and statement damasks. The colour palette reflects the collection's decadence with tones of rich red and green, while also offering a modern twist with the introduction of pastels and subtle periwinkle.

Meadow

Embracing the flora and fauna of the English countryside, Meadow combines sustainably sourced cotton and recycled polyester in a collection of prints, jacquards and embroideries. The new PT Eco range has been inspired by nature's whimsical forms, with Meadow's five designs embracing bark textures, eucalyptus stems and watercolour florals. The collection's palette of soft, muted pastels has been taken from meadow wildflowers to complement the floral designs.

Landscape

Introducing Landscape, a collection inspired by the extraordinary forms found within the earth's natural landscape. Recreating painterly horizons, rock textures and the stunning facets found within natural crystals, the collection captures the feeling of modern sophistication with its subtle hints of metallics, textured velvet and luxurious jacquards. Reminiscent of varying landscapes from across the globe, the collection's shade range has also taken inspiration from the elements with colourways such as Polar, Desert and Forest.

Secret

Understated luxury is encapsulated in Secret, a collection of luxurious, semi-matt satin. Inspired by hammered metal, the subtle embossing adds both interest and texture to opulent upholstery, drapery and accessories. Embracing an extensive colour range, Secret offers a wide variety of tones ranging from sophisticated pinks and lilacs, through to subtle metallics and on-trend hunter green.

Coastal Retreat

Inspired by staycations and the revival of the great British seaside, Coastal Retreat offers a sophisticated take on nautical interiors. The PT Eco collection embraces sailing boats, underwater scenes and handprinted shells, alongside watercolour spots, painterly Jacobeans and a coordinating diamond geometric. Presented in a palette of sea-blue, sunshine yellow and bright coral, the sustainably sourced fabrics are also available in a wipe-clean matt or glossy finish.

INDEX

COASTAL RETREAT

Diamond Geometric
Newquay Ocean, Sand & Shale
