

Summer 2022 Collections

INTRODUCTION

STEP INTO SPRING with imaginative colour, pattern and texture from Prestigious Textiles' latest selection of fabrics and wallpapers, designed to inspire distinct, creative and versatile new home stylings.

Drawing inspiration from expressive landscapes and optical illusions, the new collections showcase a versatile and stunning range of painterly textures, carefully crafted embroideries and shimmering metallics, all made for on trend interiors.

The Spring launch includes five new collections catering for the home and commercial interiors alike, including a new PT Contract range of inherently FR fabrics. Immerse yourself into this season's sophisticated and confident collections and get ready to invigorate your space.

SRI LANKA

INSPIRED BY the original tropical landscapes and vibrant culture of Sri Lanka, the linen-look collection of Jacobean florals and stylised trees is bursting with colour and style. Featuring painterly textures and intricate embroideries, the collection incorporates stunning Jacobeans, ornate damasks and a complementary mosaic tile, for truly captivating interiors. Rich hues of emerald, gold and navy, Sri Lanka is rich in pattern and colour for uplifting home décor.

PERSPECTIVE

PLAYING ON OPTICAL illusions and embracing layered finishes, the Perspective Fabric collection includes statement prints, textured semi-plains and tactile jacquards. Taking inspiration from natural stone, marble effects and stonework, depth is created with two striking prints embracing three dimensional effects. Imbued with subtle hints of metallic, complementary jacquards further enhance the theme for creating multi layered interior schemes. Embracing a colour palette of charcoal tones, rusty oranges, deep moss greens and indigos, the fabrics have also been designed to complement the Perspective Wallpaper range.

PERSPECTIVE WALLPAPER

THE PERSPECTIVE WALLPAPER collection has been designed to complement the range of fabrics, with an eclectic mix of textures and pattern. The two feature designs Sculptor and Grayson have been embellished with an embossed finish to enhance their three-dimensional effect. The metallic theme runs across the coordinating designs and magnifies their sculpted look. Etch, the textured semi plain allows you to add a corresponding colour to your room, in shades ranging from natural tones, damson shades to cerulean.

PERSPECTIVE WALLPAPER

HAWORTH

INTRODUCING HAWORTH, the latest addition to the PT Contract range. Ideal for upholstery, the inherently fire-retardant fabrics include beautifully crafted designs that will work perfectly in both residential and commercial settings. Featuring a classic herringbone and a basket weave, the collections three designs have a multi-tonal finish throughout. Haworth's small interlocking weaves come in a variety of earthy tones, essential natural shades to richer tones.

NORDIC

EMBRACING THE TREND for natural fibres, the Nordic Collection offers a beautiful 100% linen in a range of 34 colourways. The natural linen texture adds a tactile finish for effortless drapery and accessories. Nordic features an array of soft natural tones, to soothing pastels shades and rich earthy hues.

SPECTRUM OF COLOUR 2

stunning plethora of designs in a variation of colourways, the Spectrum of Colour 2 box includes 8 books of fabrics to inspire a change within the home. With weaves, prints, embroideries, jacquards and more, this is the new essential guide to starting a new interiors journey. Including the industrial tones of Titanium, the deep blues of Oasis and the warming colours of Crimson, each book has been carefully collated to inspire a new fresh home styling.
